

DX2600

5-Input Mains Powered Stereo DJ Mixer

Designed for DJ use, this stereo mixer features a removable cross-fade slide control, LED VU meters, dedicated gain controls for each channel (including the master output) and cue level and mixing controls. A talk over function is also included and the channel to be cued can be selected with a centrally located rotary switch. The mixer accepts both phono and line level inputs and features line level outputs for recording to a DAT or tape deck, etc. Mono or stereo sources can be accommodated with a front panel located push button switch. A ground point is also included on the rear panel for turntable grounding.
