Introducing the New PM Series

The world's smallest full-featured CAT III multimeters

Three NEW multimeters with innovative features in an ultra-compact size.

What's innovative?

- **Simplified interface** with easy one-touch button control, oversize digital display screens.
- **Progressive design** with two remarkable features called VolTect™ and AutoTect™. VolTect™ feature is a built-in ac voltage detector. AutoTect™ feature is a function that automatically selects the meter to display between ac volts, dc volts or resistance, depending upon what the meter senses at the probe tips.
- **Compact size** offers a meter that is only 3/8 inch (.95 cm) thick and weighs less than 3 ounces (85 g).
- **Safety standards** designed in each meter to meet CAT III safety standards and are UL certified.

AutoTect™ feature, automatically measures ac volts, dc volts and resistance

PM55

Automatic Precision Pocket Multimeter

This unique meter has a full complement of features and offers the utmost in shirt pocket portability. The PM55 is fully autoranging with an oversized, easy-to-read digital display.

- AutoTect™ feature detects and displays ac volts, dc volts or resistance
- VolTect™ feature, a built-in ac voltage detector
- Fully safety rated to CAT III and cULus levels
- Extra features of capacitance, frequency and microamp current
- Option of Low Z or Hi Z input impedance
- Transient protected to 4 kV
- Includes protective holster and denier carrying case

VolTect™
Non-Contact
Voltage Detector

- Intelligent Auto power off**
- Hi Z Voltage**
DCV and ACV 6V to 600V, 3 ranges
- Audible Continuity**
- Diode Test**
- Micro-Amps AC/DC**
To 2000 µA for flame sensor testing
- AutoTect™ Ohms**
to 6 MΩ
- Capacitance**
to 2000 µF
- Frequency**
to 30 kHz (Auto-VΩ position)
- Easy push button**
Function selector
- Fire-Retarded Material**
Thick wall housing
- Transient Protection**
Up to 4 kV 1.2/50 µs lightning surge
- 600 V Input Protection**
On all functions
- UL Listed**
to UL61010B-1 CAT III 300V and CAT II 600V
- AutoTect™ Feature**
(Automatic DCV, ACV and ohms selection, low Z voltage)
- Fully Auto-Ranging**
- 6,000 Counts**
Large easy-to-read LCD display
- VolTect™ Non-contact voltage detector**

PM53 Shirt-Pocket Size Digital Multimeter with AutoTect™

This unique meter is right-sized for portability. Model PM53 is fully autoranging and has a large, easy-to-read digital display. It offers the AutoTect™ feature that guides the meter to display ac volts, dc volts or resistance based on what you are measuring. Also offered is VolTect™, a built-in non-contact voltage detector of ac voltages. Although very small, this meter is fully UL safety rated to CAT III levels. The Meterman PM53 includes measurement extras such as capacitance, frequency and continuity plus safety extras such as transient protection to 4 kV and overload protection to 450 V.

- Non-contact ac voltage detection, VolTect™ feature
- Automatic mode selection between ac volts, dc volts and resistance, AutoTect™ feature
- Frequency measurements to 30 kHz
- Capacitance range to 2000 μ F
- Low Z input impedance eliminates ghost voltage readings
- Includes protective holster

Optional accessories
Deluxe carrying case, VC3

PM51 Pocket Size Multimeter w/Frequency and Capacitance

The PM51 meter is a shirt-pocket size meter only 2 inches (5.1 cm) wide and weighing less than 3 oz. (85 g) With a full functionality offering ac and dc voltage to 600 V, resistance to 40 M Ω , capacitance to 300 μ F, frequency to 1 MHz, continuity with beeper, and diode test. Fully autoranging, the PM51 offers seven different measurement functions with 27 full ranges of measurement. The digital display is oversized with large digits and icons in the display. In spite of its small size, the PM51 is full safety rated to CAT III 300 V, CAT II 600 V and is UL listed. No other meter offers this size with such performance and high safety ratings.

- Frequency measurements to 1 MHz
- Capacitance range to 3000 μ F
- Resistance to 40 M Ω
- Continuity and Diode Test

Optional accessories
Deluxe carrying case, VC3
Protective silicone holster, H-PM

Pick the multimeter that is right for you.

UL and EC ratings

UL and EN61010-1 voltage ratings

EN61010-1 category and voltage ratings on multimeter products

International Safety Standards for Digital Multimeters

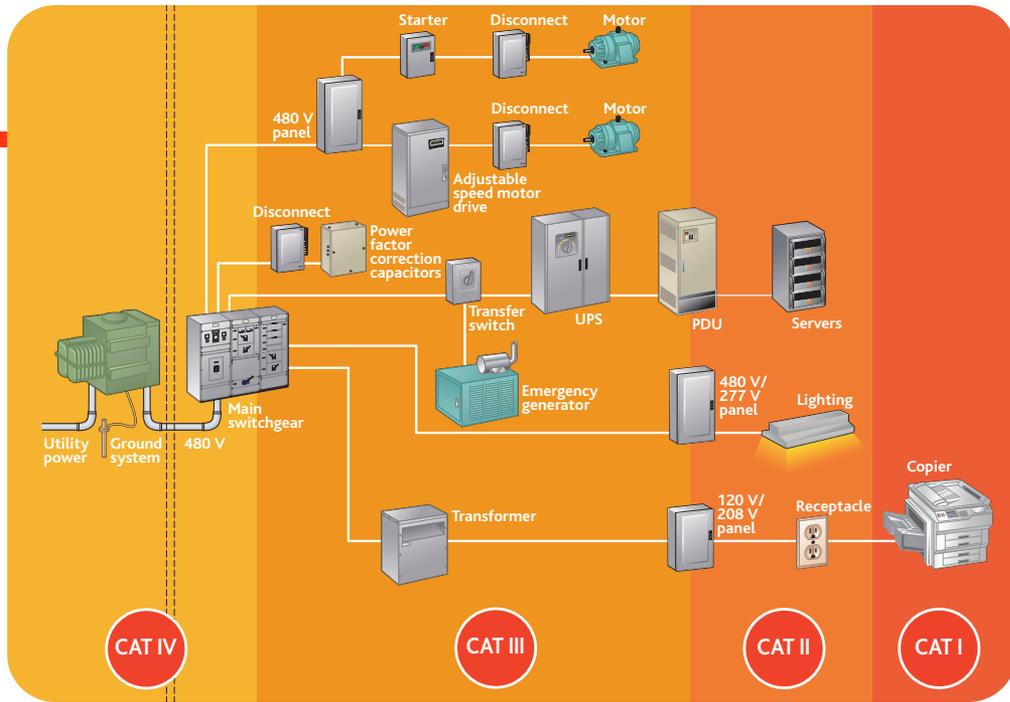

Test equipment must be designed to protect people who work in the high-voltage, high-current environment. In order to prevent injury the International Electrotechnical Commission (IEC) develops international general standards for safety of electrical equipment for measurement, control and laboratory use. The most current standard 61010 specifies overvoltage categories for electrical distribution systems. The Category rating increases based on the closeness to the power source and a higher level of user protection is required from test equipment.

Proposed Energy Regions*

- | | |
|---|--|
| CAT I
Electronics, signal level | CAT II
Appliances, portable tools, single-phase receptacle loads |
| CAT III
Three-phase distribution, large building lighting systems, distribution panel devices | CAT IV
Three-phase at utility connection, electricity meters, outside and service entrance |

Meterman® Test Tools recommends only using test equipment in environments below or up to its Category rating, never in a Category above the instrument's rating.

**Category Ratings per IEC1010-1. Category boundaries may not be exact.*

UL U-CSA-C CAT I CAT II CAT III CAT IV

Quality and service beyond compare

Our products

The products shown in this catalog include an extensive selection of portable multimeters, clamp meters, component checkers, bench meters, HVAC testers and specialty tools such as logic probes and short-finders to meet any application. Also shown is a complete selection of accessories including protective cases, test leads and adapters.

Our distributors

The products shown in this catalog are sold and supported by a worldwide network of Meterman distributors and dealers. Should you require any assistance or have questions about our products or their applications, these local dealers stand ready to serve you.

XP Series Compact Multimeters

Available on all XP Series meters.

Magne-Grip™ Holster with magnetic hanging strap frees both hands for work.

Triple safety rating

Protects against line surges and over-voltage conditions.

VolTect™ non-contact voltage detection lets you instantly detect dangerous ac line voltages.

The XP Series digital multimeters are full-featured, very accurate, and compact in size. Some of the unique features include VolTect™ a built-in non-contact voltage (NCV) detector, temperature measurement, CAT III safety ratings, and our exclusive Magne-Grip™ holster that frees both hands for work. There are three models designed to fit your applications.

Measures temperature. Type K thermocouple included with the 35XP.

(Shown with optional accessories MH101K and TP130K, see page 11)

35XP A compact, full-featured digital multimeter for plant maintenance, HVAC, electrical and electronics applications.

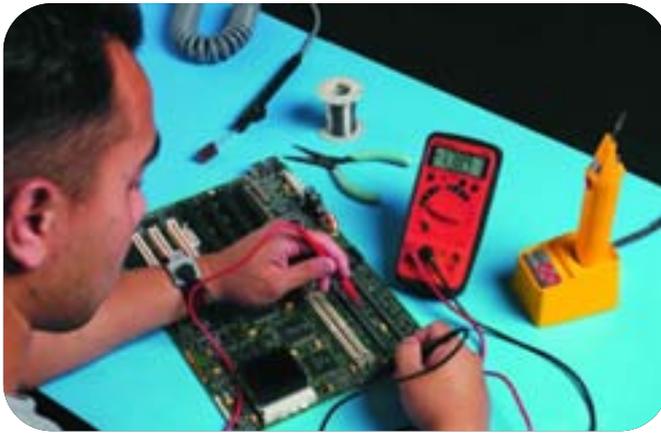

The 35XP is the right choice for HVAC, plant maintenance technicians and residential electricians.

- Temperature measurement capability to 1000 °C/1832 °F (Type K thermocouple included)
- 750 V ac/1000 V dc – highest voltage rating in this class of meter
- Capacitance for motor run/start test
- 0.1 µA resolution for flame sensor testing
- Frequency to 40 MHz
- Resistance to 40 MΩ
- Data Hold freezes display

Optional accessories

- Carrying case, VC30
- Test lead kit, DL243C

15XP A compact digital multimeter for electronics and test applications

The 15XP is the right choice for electronics engineers, technicians and field service.

- Autoranging display for faster measurements
- TTL logic test for digital circuits
- Integrated tilt stand for easy bench use
- Diode test for component level troubleshooting
- Data Hold freezes display to “hold” measurement reading
- 750 V ac/1000 V dc – highest voltage rating in this class of meter

Optional accessories

Carrying case, VC30
Test lead kit, DL243C

5XP A compact full-purpose multimeter

The 5XP is the right choice for residential, commercial and general troubleshooting applications.

- 27 ranges/10 functions – a complete performance, general purpose digital multimeter
- 750 V ac/ 1000 V dc – highest voltage rating in this class of meter
- Battery load test with 1.5 volt and 9 volt capabilities
- Min/Max records minimum and maximum values
- Data Hold freezes display to “hold” measurement reading

Optional accessories

Carrying case, VC30
Test lead kit, DL243C

Pick the multimeter that is right for you.

See the larger, more feature-rich multimeters—the XR Series on pages 8 and 9

XR Series

38XR

True RMS digital multimeter with optical PC interface

- 10,000-count with high 0.25 % accuracy
- Bright blue backlight for dim environments
- Duty cycle, capacitance and frequency
- Magne-Grip™ holster with magnetic hanging strap
- 4-20 mA loop current with % readout
- Temperature to 2372 °F/1300 °C, type K thermocouple included
- True RMS AC + DC coupled for accurate measurements
- RS-232 data out for use with optional software, Model 38-SW

Three-year warranty

38XR

37XR

True RMS with component and logic test

True RMS meter for electronics troubleshooting at the bench or job site. The highest accuracy meter in the XR series.

- Autoranging 10,000 count with 0.1 % accuracy for the most accurate measurements
- LCR functions – inductance, capacitance and resistance
- Frequency, duty cycle and logic test
- Bright blue backlight for dim environments
- Magne-Grip™ Holster with magnetic hanging strap

Three-year warranty

37XR

34XR

True RMS with temperature and backlight

Ideal for contractors and field service technicians.

- True RMS for the most accurate measurements
- Extended 4000 µF capacitance range for motor run/start testing
- Bright blue backlight for dim environments
- Duty cycle, frequency and capacitance for complete measurement capability
- Temperature to 1832 °F/1000 °C with a type K thermocouple included
- Magne-Grip™ Holster with magnetic hanging strap
- Data Hold, Min/Max and bar graph

Three-year warranty

34XR

Five meters designed for electronic, electrical, plant maintenance and HVAC applications

Magne-Grip™ Holster with magnetic hanging strap

Many DMM users find they need a “third hand” when taking a measurement with their meter. We designed the Magne-Grip™ holster to protect the meter and provide the “third hand” DMM users need. An innovative magnetic hanging strap secures the meter to a convenient steel surface, freeing both hands for work. Included with all XR meters.

33XR

Manual ranging with temperature and capacitance

33XR gives the contractor and field service technician all the essential measurement functions they need in a rugged package.

- Temperature, frequency and capacitance
- Extended 4000 μF capacitance range for motor run/start testing
- Magne-Grip™ Holster with magnetic hanging strap
- Data Hold, Peak Hold, Min/Max and REL

One-year warranty

30XR

DMM with VolTect™, a built-in non-contact voltage tester

The 30XR has all the basic functions for automotive, residential and education applications.

- 9 functions, 30 ranges handles most measurement needs
- Magne-Grip™ Holster with magnetic hanging strap frees both hands for work
- Battery/fuse door designed for easy accessibility
- Battery tester

One-year warranty

Pick the multimeter that is right for you.

Optional RS232 cable and software, 38-SW

- Real-time data acquisition software logs and displays data from all 38XR measurement functions
- Stores data for retrieval or for further analysis
- Exports data for use in Excel® or other programs
- Supports Windows® 98, NT, XP and their variants

HVAC Testers

TPP2-F/TPP2-C

Surface probe pocket thermometers with flat surface contact

- Fahrenheit and Celsius versions
- 0.1 °F / 0.1 °C resolution
- Easy-to-read digital display
- Data hold to freeze display
- Long battery life, 200 hours typical
- Temperature ranges -50 °F to 480 °F (-50 °C to 250 °C)

TPP1-F/TPP1-C

Same features as TPP2 but with an immersion probe tip

- Protective probe sleeve with pocket clip

TM-SW

Optional RS232 cable and software for TMA10 and TMD90

- Record two channels simultaneously - T1 and T2 with TMD90
- Air flow and temperature with TMA10
- Store results for further analysis

TMD90

Dual input digital thermometer with triple display

- High accuracy, multiple type input thermometer
- Ideal for HVAC/R technicians, electricians, research, industrial process, quality control
- Dual inputs for easy super-heat and sub-cool temperature measurements
- Dual channel real time data acquisition with RS232 output with optional software and cable, Model TM-SW
- Triple display of T1, T2, T1 - T2, and relative time stamp
- Backlight
- Deluxe hard carrying case, two Type K probes

Thermocouple	Temperature Ranges	Accuracy
Type K	200 °C to 1370 °C (328 °F to 2498 °F)	0.1 % rdg + 0.7 °C (0.1 % rdg + 1.4 °F)
Type J	-200 °C to 760 °C (-328 °F to 1400 °F)	0.1 % rdg + 0.7 °C (0.1 % rdg + 1.4 °F)
Type T	-200 °C to 390 °C (-328 °F to 730 °F)	0.1 % rdg + 0.7 °C (0.1 % rdg + 1.4 °F)
Type R and S	0 °C to 1760 °C (32 °F to 3200 °F)	0.3 % rdg + 0.7 °C (0.1 % rdg + 1.4 °F)
Type E	-200 °C to 736 °C (-328 °F to 1832 °F)	0.3 % rdg + 0.7 °C (0.1 % rdg + 1.4 °F)

TMA10

Anemometer with flexible precision vane

- Measure air velocity FPM or air volume CFM
- Input surface area for accurate air flow measurements
- Flexible vane sensor
- Precise Thermistor for temperature measurements
- Continuous moving average results for up to 2 hours
- MIN/MAX/AVG readings
- Air velocity average for multiple point
- Data hold to freeze measurement display of both readings
- RS232 interface output with optional software and cable, Model TM-SW
- Deluxe hard carrying case

Measurement	Range	Resolution	Accuracy
Air Velocity	0.40 to 25.00 m/s	0.01 m/s	± 2 % of full scale
Air Flow	125 to 4900 ft/min	1 ft/min	± 2 % of full scale
Air Flow	0.01 to 99.99 m ³ /sec Area: 0 to 9.999 m	0.01	± 2 % of full scale
Air Flow	1 to 9999 ft ³ /min Area: 0 to 9.999 ft	1.0	± 2 % of full scale
Air Temperature	0 °C to 50 °C (32 °F to 122 °F)	0.1 °C/(°F)	± 0.8 °C (1.5 °F)

TRH22

Relative humidity and temperature meter

- Relative function monitors humidity and temperature changes
- Large dual display of RH and temperature
- Complete with carrying case, battery and wet bulb chart
- Min/Max/Data Hold

Measurement	Ranges	Accuracy	Resolution
Relative Humidity	0 to 100 %	5 % RH to 95 % RH ± 3 % RH	0.1 % RH
Ambient Temperature	-20 °C to 60 °C (-4 °F to 140 °F)	± 0.8 °C (± 1.6 °F)	0.1 °C/0.1 °F

TMD90

TMA10

TRH22

IR610

Infrared Thermometer

- Laser pointer for accurate targeting
- Measures to 500 °F (260 °C), front panel switchable
- Narrow 10:1 field of view measures 1 in. at 10 in. distance
- Large 3-1/2 digit display with backlight
- Data Hold, low battery indicator
- Fixed emissivity at 0.95
- Rugged Valox® case
- Shipped with carrying case and batteries

Range	Resolution	Accuracy
-20 °C to 260 °C (0 °F to 500 °F)	1 °C (1 °F)	± 3% of rdg or ± 3 °C (± 6 °F)

IR610

LM631

Digital Light Meter

- Measures wide range of light up to 20,000 fc or lux, front panel switchable
- Sensor dome has 45 in. (114 cm) attached cord
- Built-in CIE spectrum curve for accurate human eye response
- Peak Hold and Data Hold
- Large 3-1/2 digit display with backlight
- Rugged Valox® case
- Shipped with carrying case, extra lens cover and batteries

Four Ranges	Accuracy	Resolution
20, 200, 2000, 20000 lux 20, 200, 2000, 20000 fc	± (3 % rdg + 10 dgts)	0.01 lux; 0.01 fc

LM631

TM45

Ideal for HVAC/R contractor, plant maintenance, commercial building service

- Unique, mini-stick design thermometer
- Small, go-anywhere size
- Type K thermocouple compatible
- °F/°C and 1°/0.1° selectable
- Data and max hold
- Type K probe and carrying case included

1 °F Range: -58 to 1999; ±0.3 % ±2 °F
0.1 °F Range: -58.0 to 199.9; ±0.3 % ±2 °F
1 °C Range: -50 to 1300; ±0.3 % ±1 °C
0.1 °C Range: -50.0 to 199.9; ±0.3 % ±1 °C

TM45

TC253A

Adds thermometer function to DMM

- °C/°F switchable
- Uses type K thermocouple sensor
- Includes TP255 Type K probe

Range: -50 °C to 1000 °C
Range: -58 °F to 1832 °F
Output: 1 mV/°

TC253A

MH101K

Thermocouple

- Master probe handle for probes below
- Concept saves money when
 - two or more probe styles are used
 - replace only probes if damaged
- 5:1 expandable coiled extension wire

TP110K

- Immersion probe tip
- 650 °C/1200 °F
- Use with MH101K handle

TP120K

- Surface probe tip
- Specially designed to get true surface temperatures
- 650 °C/1200 °F
- Use with MH101K handle

TP130K

- Air/gas probe tip
- Specially designed with radiation sheath
- 650 °C/1200 °F
- Use with MH101K handle

TP255

Low-cost, general purpose Type K probe

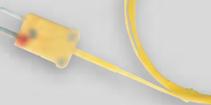

- 200 °C/392 °F

TP254

Higher-temperature immersion probe

- Attached handle
- 1100 °C/2012 °F

Clamp Meters and Amp Clamps

New!

AC71 Automatic AC clamp multimeter with backlight

- Automatic bright blue backlight
- AutoTect™ function selector for ac V, dc V and Ω detection
- Simple one button control
- AC current to 600 A
- AC/DC volts to 750 V/ 1000 V
- CAT II 1000 V, CAT III 600 V safety rated

AC75 AC clamp multimeter for electrical and HVAC applications

- Three tools in one: clamp meter, multimeter, thermometer
- Digital thermometer 1000 °F (400 °C), with Type K probe
- AC/DC volts 750 V/1000 V
- 40 MΩ resistance
- Low dc μAmps for flame rod detector testing
- Capacitance to 4000 μF for motor run/start testing
- Continuity beeper
- 4000-count large digit display
- Auto power off
- Full overload protection
- CAT II 1000 V, CAT III 600 V safety rated
- One-year warranty
- Carrying case

Product includes:

ELS2 AC Line Splitter

- Measures load current without splitting line cord
- Two measurement points, X1 and X10 for increased sensitivity
- Built-in voltage measurement jacks
- One-year warranty

(not available in all countries)

AC40A

Compact clamp multimeter measures up to 400 A ac plus voltage, resistance and continuity. Measures low ac current in 40 A range

- 40 and 400 A ranges
- 600 V ac and dc range
- 10 mA resolution in 40 A range
- 4000-count display with bargraph
- Autoranging, Data Hold and auto-off
- CAT III 600 V rated

AD40A

Compact clamp meter measures up to 400 A ac in tight spaces. Measures low ac current in 40 A range

- 40 and 400 A ac ranges
- 10 mA resolution in 40 A range
- 4000-count display with bar graph
- Autoranging, Data Hold and auto-off
- CAT III 600 V rated

AC65

Rugged True RMS ac clamp multimeter measures non linear load current

- Professional's 600 A AC-DMM
- Voltage to 600 V ac
- Resistance and continuity
- Autoranging, Data Hold and 4000-count
- CAT II 600 V, CAT III 300 V rated

AC68

Extended DMM features such as frequency combine with an ac/dc current measurement for our most versatile clamp meter

- Top-of-the-line professional clamp DMM
- AC and dc current to 600 A
- AC and dc voltage to 600 V
- Resistance
- Continuity
- Data and ac peak hold
- CAT III 600 V rated

AD105

Our best True RMS clamp delivers the widest range of current measurement with ability to measure non-linear loads to 1000 Amps

- Broad range 1000 A, ac and dc ammeter
- 4000-count, True RMS, autoranging and frequency
- Peak hold and dc auto zero
- Belt-clip sleeve case included
- CAT III 1000 V rated

Current Transformers

CT231A

- AC current clamp, 200 A (50/60 Hz)

Wide ac bandwidths

CT235

- AC/DC current clamp, 1000 A (50/10 kHz)

CT237

- AC/DC current clamp, 200 A (50/10 kHz)

CT238

- AC/DC current clamp, 20 A (50/20 kHz)
- Low Current version

HD Series Heavy-Duty DMMs

HD Series

The HD Series of DMMs is designed for professional use in harsh environments.

The meters are unusually rugged and reliable in everyday heavy use applications. Each meter is made using waterproof construction to prevent dirt, grime and moisture from entering the case and causing inaccurate readings or damaging shorts.

They are built of tough, fire-retardant thermoplastic resistant to grease and chemical spills, with all sensitive components shock-mounted for a drop resistant to at least eight feet.

Every meter in the HD line has an extended voltage measurement capability of 1500 V dc and 1000 V ac, unmatched by any other line of digital multimeters. The extended voltage ranges can withstand transients up to 6 kV.

HD110/HD110T Completely sealed and environment proof meters

- V dc accuracy of 0.1 %
- Superior 1500-hour battery life

HD110T

- All the features of the HD110 plus temperature measurement to 1093 °C (2000 °F)
 - Type K probe included
- Not for sale in EC*

HD110B, HD115B, HD160B

Three rugged DMMs constructed for IP67 water proofing and harsh environments

- MIL-PRF-28800 rated
- Drop proof special housing and PCB mounting
- Extra fusing and protection from accidental overloads
- Highest voltage measuring to 1500 V dc and 1000 V ac
- Oversized shock mounted LCD display
- Auto power off
- Unique live voltage safety tester

HD115B also includes

- Digi-Glo™ backlight
- Capacitance

HD160B also includes

- True RMS
- Autoranging, 10,000 count
- Menu Selectable Max/Min, Relative, Probe Hold

General Purpose Testers

AM8

Analog multimeter for the home, car or workshop

- High sensitivity taut band movement
- 5 functions/15 ranges
- Battery test
- Ohms zero adjust
- Holster included
- Compact size

DM2

Compact multimeter with detachable test leads for the home, car or workshop

- Replaceable, plug-in test leads
- 5 functions/17 ranges
- 2000-count
- Small enough for any tool kit

Not for sale in EC

DM7

Compact multimeter with attached test leads for the home, school or workshop

- 6 functions/14 ranges
- Special loading to test household batteries
- 2000-count
- Holster included

DM9

Compact autoranging meter with battery test function for home office or workshop

- Higher resolution, 4000-count autoranger
- 8 functions/19 ranges
- Continuity beeper
- Special loading to test household batteries
- Holster included

DM78A

Voltage, continuity, diode and resistance in a credit card size meter

- 5 functions/16 ranges
- Auto power off, Data Hold
- Protective case included
- 3200-count display with analog bar graph

DM73B

Meter with built-in test probe for one-hand operation.

- Unique pen shape autoranger
- Two probe tip lengths 0.5 in. (1.27 cm) and 3 in. (7.62 cm)
- Allows one-hand operation
- 3400-count display with analog bar graph
- Data hold, Auto-off

TP73B

Replacement probe tips for DM73B meter

- 0.5 in. (1.27 cm) and 3 (7.62 cm) in. probe tip lengths

Pick the Pocket Size meter that is right for you.

Electrical Testers

ECB50 Circuit Breaker Finder

Three testers in one:
identify circuit breaker
to an electrical socket,
trace ac cables in walls,
sort wires in a bundle

- Microprocessor controlled
- Coded transmission allows easy separation of transmitter signal
- Audible and visual indicators
- Low battery indicator
- Cable tracing depth up to 16 inch (40 cm)
- NEMA 5-15 plug
- UL Listed
- CAT III 150 V rated
- One-year warranty

*Shuko CEE 7/4 version available, CAT III 300 V, sold as Model ECB50-FGIS
British standard BS 1363 version available, CAT III 300V, sold as Model ECB50-E*

ST101 Socket Tester

- Fast and easy socket test
 - Easy-to-read light indicators
 - Confirm proper wiring and operation of ac socket
 - For use on 110-125 V ac
 - cULus listed
- not available in all countries*

ST102 GFCI Socket Tester

- Test 110-125 V ac GFCI breakers for proper wiring and operation
 - GFCI circuit trips to confirm tester is working
 - cULus listed
- not available in all countries*

VT201 Non-Contact Voltage Detector

- Quickly check for the presence of ac voltages, with no electrical contact
- Safe non-contact detection of voltages from 70 V to 440 V ac
- Both visible and audible indicators
- Detector emits loud audible chirping
- Bright flashing LED
- Batteries included
- UL and CE listed

Product includes:

New!

EPM3

Phase Sequence and Motor Rotation Tester Compact three function tester

- Identify proper phase sequencing of live three phase line voltages
- Determine three phase motor rotation direction
- Check for open phase status
- Bright LED illuminators to clearly indicate test results
- Includes three color coded test leads with large alligator clips
- Convenient carrying case for portability and storage
- CE, IEC1010, EN61557-7, TUV, cCSAus, CAT III 600V rated
- Highest safety rated tester available

VT102 Voltage Tester

- 4 bright neon lights indicate ac voltage
- 4 ranges indicated from 110 V to 460 V ac
- Tests 2 wire and 3 wire ac outlets
- cULus listed

VT101 Voltage Tester

- Bright neon light indicates ac voltage
- Identify ac voltage from 90-500 V ac
- Tests 2 wire and 3 wire ac outlets
- cULus listed

Bench-top Instruments

FG2C

- 3 MHz function generator
- High feature and low cost
- Easy push-button selection for power, range and waveform
- Square, triangle, sine wave and TTL/CMOS outputs
- Duty cycle and dc offset control VCF input
- Includes test cables and spare fuses

FG3C

- 3 MHz sweep/function generator
- Built-in, 6-digit display 150 MHz frequency counter
- Best value combination generator
- Square, triangle, sine wave and TTL/CMOS outputs
- Amplitude or frequency modulation
- Linear and logarithmic sweep modes
- Duty cycle, VCF and dc offset control
- Includes test cables and spare fuses

BDM40

- True RMS, 4-1/2 digit and 20,000-count multimeter
- AC or ac + dc input coupling
- High accuracy, basic V dc 0.03 %
- Voltage to 1200 V dc, 1000 V ac
- Current from 10 nA to 20 A
- Resistance from 10 Ω to 20 M Ω
- Interlocking push-button control for easy selection
- CAT I 1000 V rated
- One-year warranty

Note: all three models ship with 220 V and 117 V operation. They include both sets of line cords and fuses.

When your applications are best suited to bench-top style meters, look to Meterman for solutions. For depot service, design engineer's, production or QC benches, school labs and more, Meterman offers three different low-cost/high-feature test instruments. All are housed in an attractive custom case with a cushion grip, non-skid, tilt-stand handle, rear power cord wrap, and grooved channels to allow stacking.

Pick the function generator that is right for you.

Specialty handheld probes

LP10A/LP25A

- Pen-size logic probes
- Troubleshoot and analyze digital logic circuits

LP10A: Good value for most common circuits

Detects pulses > 30 ns up to 17 MHz, TTL, CMOS levels and dual LEDs indicate hi/lo state

LP25A: Increased frequency range

Detects Pulses > 30 ns up to 25 MHz, TTL, CMOS, DTL, RTL, NMOS, MOS Logic
Dual LEDs and Tone Indicate Hi/Lo State

LP10A/LP25A

HV231-10

- High voltage probe
- Extended voltage measuring to 40 kV
- Use with standard multimeters with 10 MΩ input impedance

HV231-10

SF10

Exclusive patented technology provides the fastest and easiest method of finding shorts and tracing circuits on PCBs

- Brush probe quickly troubleshoots printed circuits, multi-conductor cables, mass terminations, backplanes, connectors and IC sockets
- Low-test voltage protects sensitive circuitry

SF10

Output Voltage	0.5 V dc
Max Current	100 uA
Continuity	< 10 Ω
Brush Material	Stainless Steel

Handheld Component Testers

CR50

Compact component checker

- Measures capacitance and resistance
- Wide measurement ranges
- Dual zero adjustment pots to null strays and test leads
- Special "Low Ohms" range

LCR55

Full-size component checker

- Measures inductance, capacitance, resistance, transistors, diodes and microwave diodes
- Wide measurement ranges
- Data hold, max hold and auto-off

	CR50	LCR55
Resistance	0.01 Ω - 20 MΩ, ±1.0 %	0.01 Ω - 20 MΩ, ±0.5 %

Small Package Big Performance

Introducing the new PM Series
Compact multimeter designed for industrial

- Ultimate shirt-pocket size for portability
- AutoTect™ feature directs the meter to automatically measure ac or dc volts or resistance
- VolTect™, a built-in ac volt detector
- Measures ac/dc microamp current
- Capacitance, frequency and continuity
- Large oversize display
- Full safety ratings of CAT III 300 V and UL

PM55
The world's smallest full-featured CAT III multimeter—portability at its best, see pages 2 and 3
