Please Note:
Gender of connector description is based on the sex of the pins.

APP8 Series-D.I.Y. ISO RADIO

The APP8 series of harnesses are designed to plug directly into the back of the majority of aftermarket radios (Alpine, Clarion, JVC, Kenwood, Panasonic, Pioneer, Sony) leaving you with a male pair of ISO plugs on the other end to connect. The male ISO connectors are then simply plugged into the corresponding 'APP' plug, or existing original factory female ISO plugs (depending on vehicle), and you're away. How easy is that!

To Suit Alpine

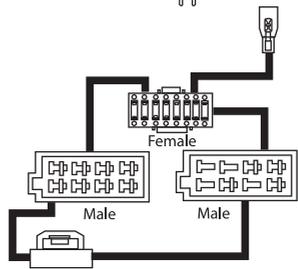

- Suits latest model Alpine car audio units
- 16 pin plug (square pins)
- Square holes

APP8ALPH

9 317114 885791

- Suits latest model Alpine car audio units
- 16 pin plug (round pins)
- Round holes

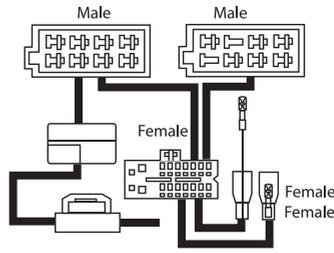

APP8ALPL

9 317114 887467

To Suit Clarion

- Suits all latest model Clarion car audio units
- 15 pin plug

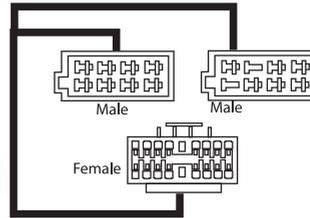

APP8CLA

9 317114 885777

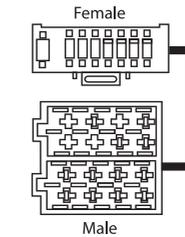

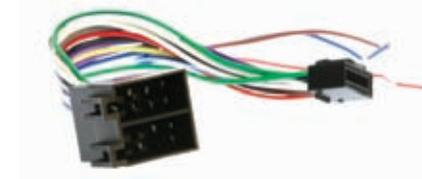

To Suit JVC

- Suits JVC car audio units
- 16 Pin (2x8)

APP8JVC

9 317114 892775

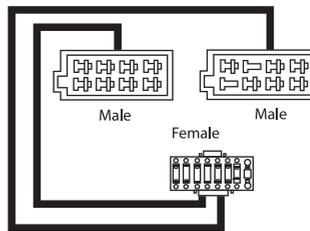

NEW
APP8JVC2

9 317114 900791

To Suit Kenwood

- Suits 2000-04 model Kenwood car audio units
- 14 pin plug

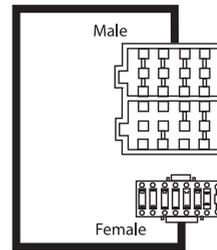

APP8KE

9 317114 885784

To Suit Kenwood

- Suitable for all Kenwood models 2005 On
- 16 Pin connection
- 2 Large Pins for Power and Earth. Makes for easy D.I.Y. installation

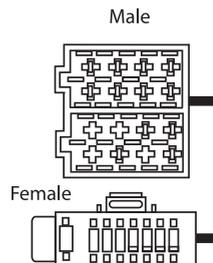

APP8KE1

9 317114 892782

To Suit Panasonic

- Suits all latest model Panasonic car audio units
- Makes it easy for D.I.Y. installation

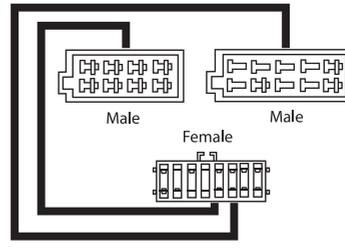

APP8PAN

9 317114 892119

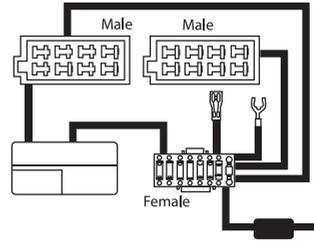

To Suit Pioneer

- Suits all latest model Pioneer car audio units
- 14 pin plug

APP8PIO

9 317114 885753

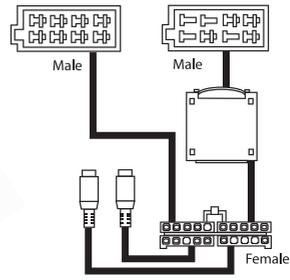

APP8PIO2

9 317114 899200

To Suit Sound4

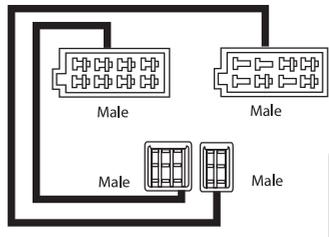

- Suits all models (1 Plug Type).

APP8S41

9 317114 893680

- Suits all models (2 Plug Type).
- 1x9 Pin and 1x6 Pin.

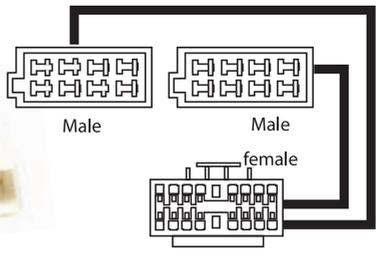

APP8S42

9 317114 893697

To Suit Sony

- Suits all latest model Sony car audio units
- 12 pin plug

APP8SP

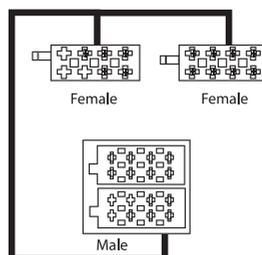

9 317114 885760

APP SERIES – D.I.Y. ISO CAR

The APP series of harnesses are designed to plug directly into the pre-existing factory radio plug/s of your car leaving you with a set of female ISO plugs on the other end. The female ISO plugs can then be plugged straight into either an 'APP8' series plug (which then simply plugs straight into the back of a head unit) or straight back into an original factory head unit (if unit is using ISO male plugs). They are also great if you are not sure of which coloured wire goes where.

To Suit Alfa

- ISO Connector to Alfa
- 145/146 - 07/1993 - 1997
- 147 - 04/2001
- 155 - 03/1992-09/1997

AP SERIES

The AP series of harnesses are designed to plug directly into the pre-existing original factory radio plug/s in your car and leave you with the bare ends to work with. This allows you to avoid cutting the original factory plug out of your car in order to wire in an aftermarket head unit, maintaining your vehicle's original factory condition giving you a tidy professional finish.

To Suit Chrysler

Chrysler Jeep – Aftermarket Radio Harness
 • This Harness is to be wired to aftermarket radio's loom and plugs into your vehicle's wiring harness.

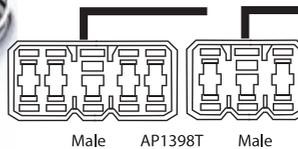

AP1020

9 317114 873491

To Suit Daihatsu

Wiring Harness to most early model, larger 2-plug type

• This Harness is to be wired to your aftermarket radio's loom and plugs into your vehicle's wiring harness. Suits most early model Toyotas, larger 2-plug type
