

Aerpro  
Double Grip  
Terminals

# Aerpro DOUBLE GRIP. Solder vs Crimp

## Soldering:

In terms of connection reliability it is hard to beat a soldered connection. However, soldering connections inside a vehicle is not only difficult but also carries with it the risk of damage to vehicle interiors if the soldering iron is not handled carefully. Even the best laid interior protectors can shift during installation just enough to allow a drop of molten solder to drop through the gap on to an expensive interior part. The other draw backs of soldered connections is that they are more time consuming to complete than a crimp connection with such things to consider as iron heat up time, getting power to the vehicle to power the iron, not to mention the extra time required to tape wrap all your joints to insulate them from shorts.

## Crimp connections:

Crimp connections vs Soldered connections are an interesting comparison because not all crimp connections are equal. The 2 important factors to consider:

### 1) The quality of the crimp connectors

The first thing to consider is the outer insulator of the crimp terminal. It must be hard enough to hold its shape after crimping yet if the material is too hard the insulator can crack and in some cases fall off leaving the crimp exposed to shorts. The New range of Aerpro terminals use vinyl outer insulators with a formulation that strikes a perfect balance of hardness without the risk of cracking.

The new range of Aerpro terminals also have a copper inner sleeve that greatly improves the quality and reliability of the crimp connection. At Aerpro we call this system DOUBLE GRIP because the wire is held in the terminal in two places. It is held by the bare wire end at the front of the crimp like ordinary terminals and it is also held by the copper inner sleeve at the back of the crimp where it holds the incoming wires outer sheath. All but one model in our entire range of crimp terminals uses the Aerpro DOUBLE GRIP system.

### 2) Using a quality set of crimpers

No matter how good the terminals are that you use, the crimp connection will always be better if you use a good quality pair of crimpers. In this edition of Installer's First Choice we have two models to choose from. Both these devices are of exceptional quality and will ensure the best possible job with the least amount of fuss. However, if you do not have a good quality pair of crimpers at hand the double grip system does in fact improve the chances of a good crimp connection in these less than ideal conditions when compared to a non-double grip type terminal.

Some circles may argue the draw backs of crimp connections vs soldered joints. However, a crimp connection using Aerpro's Double Grip range of terminals is faster, neater and when done correctly, every bit as good as a soldered connection and it looks far more professional than a taped up solder joint.

-    • Match Colour for correct Amperage

# Crimp Terminal Range

• All Aerpro Crimp Terminals are packed in hang sell poly bags with full colour header cards

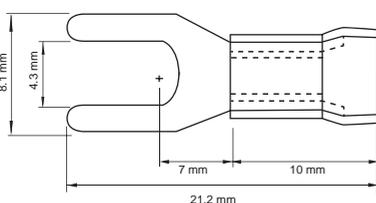

## Fork Terminals

**19A**

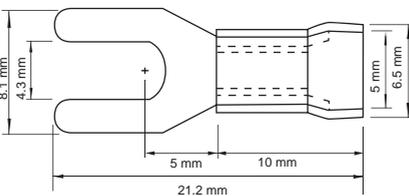

**27A**

**48A**

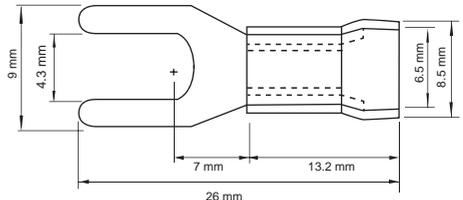

• Match Colour for correct Amperage

- 4.3mm Red fork terminals, 100pcs
- Wire size 22-16 AWG 0.5-1.5mm

- 4.3mm Blue fork terminals, 100pcs
- Wire size 16-14 AWG 1.5-2.5mm

- 4.3mm Yellow fork terminals, 100pcs
- Wire size 12-10 AWG 4-6mm

- Wire size 12-10 AWG 4-6mm

Sizes may vary slightly due to manufacturing tolerances

**Tools • 2 year Warranty on all tools!**

This assortment of professional workshop tools have been carefully created to cater specifically to the mobile electronics professional installer. All items are made from the finest materials with world's best practice manufacturing to deliver the highest quality at the best price.

**Wire Strippers**

- Multi-Function insulated wire strippers
- Strip, crimp & cut
- Rubber over moulded grip
- Patented design
- Made in Taiwan

**WS024**

9 317114 899163

**Side Cutters**

- Small wire side cutters
- Rubber over moulded grip
- Suitable for cutting wire sizes up to 12 GA
- Genuine Pro quality tool

**SC022**

9 317114 899170

**Wire Crimpers**

- 3 Die
- Double crimp type
- Made in Taiwan

**YYT1**

9 317114 884794

## 6mm Short Blind Rivets

- 3.2mm width
- 6mm rivet head length
- Aluminium with steel pin, pack of 100 pcs

**BRVT326**

9 317114 899439

## 10mm Long Blind Rivets

- 4mm width
- 10mm rivet head length
- Aluminium with steel pin, pack of 100 pcs

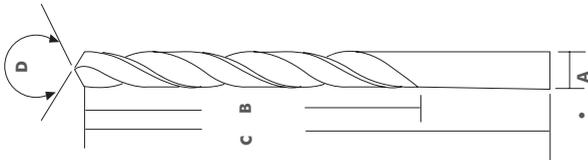

**BRVT410**

9 317114 899446

## Titanium Coated Drill Bits

In keeping with our philosophy of providing a complete range of products rather than having a patch work of individual items, we have created an extensive assortment of imperial and metric drill bits to cater to the needs of the Workshop professional and the enthusiast DIY Retail customer. We thought that having just 1/8th drill bits in a "range" is like having tomato sauce with out a meat pie to put it on! This range of professional drill bits are made from durable HSS Steel with a Titanium Nitrate coating. This coating acts as a surface lubricant that reduces friction at the cutting face as well as helping to clear swarf from the drill hole. This effect increases the life of the cutting face in terms of its sharpness. Drill bits from 3mm up also feature a split point to stabilise the tip when drilling metals and alloys.

• A for size • B for flute length • C for total length • D for degree

### Imperial Sizes

Model	A	Metric conversion(mm)	Closest Metric	B	C	D
HSS14	1/4"	6.25	6	63	101	135

## Jigsaw Blades - Bi Metallic

3 Blades per pack

### Makita Type

Suits most Makita models

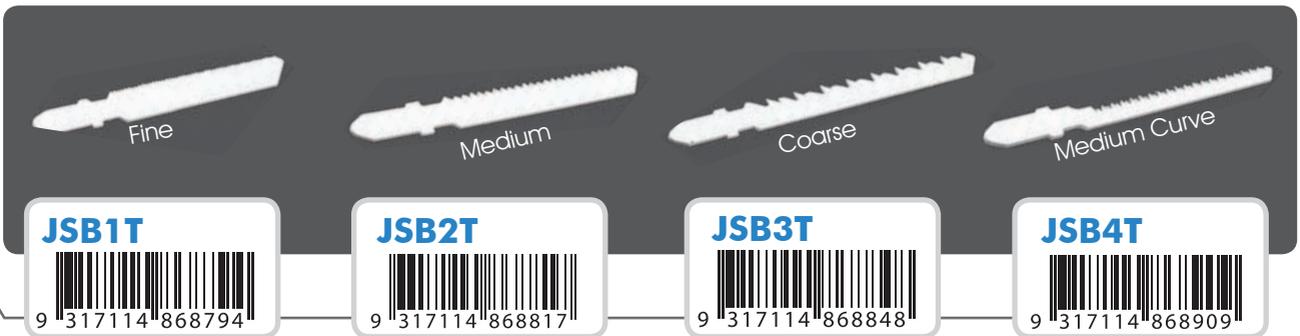

Model	Tooth Pitch	Blade Length	Will Cut
JSB1M	1.1mm/21 tpi	80mm	Soft Metals, Non Ferrous Metals, Stainless Steel, Epoxy
JSB2M	2.0mm/12 tpi	80mm	Soft Metals, Non Ferrous Metals, Stainless Steel, Epoxy
JSB3M	3.0mm/8 tpi	100mm	Hardwoods, Softwoods, Laminated Board, Fiberglass
JSB4M	2.0mm/12 tpi	76mm	Hardwoods, Softwoods, Plastics

### T Shank

Suits Bosch, Metabo, DeWalt, recent Makita, AEG, ELU Models

Model	Tooth Pitch	Blade Length	Will Cut
JSB1T	1.1mm/21 tpi	76mm	Soft Metals, Aluminium, Epoxy, Non Ferrous Metals, Stainless Steel
JSB2T	2.0mm/12 tpi	76mm	Soft Metals, Aluminium, Epoxy, Non Ferrous Metals, Stainless Steel
JSB3T	4.0mm/6 tpi	100mm	Hardwoods, Softwoods, Fiberglass, Laminated Board
JSB4T	1.4mm/20 tpi	76mm	Hardwoods, Softwoods, Plastics

### U Shank

Suits: Black & Decker, Skil, Ryobi, Hitachi

Model	Tooth Pitch	Blade Length	Will Cut
JSB1U	1.1mm/21 tpi	76mm	Soft Metals, Aluminium, Epoxy, Non Ferrous Metals, Stainless Steel
JSB4U	1.4mm/20 tpi	76mm	Hardwoods, Softwoods, Plastics

# MAXMATT

## Sound Deadening

- MAXMATT Sound deadening material for reducing noise and vibration
- Easily moulds to the contours of the metal or fiberglass interior surface of your vehicle
- Extra sticky butyl layer of MAXMATT stays firmly in place once it is applied and absorbs road noise, panel rattle and vibration
- The aluminium layer keeps your vehicle cool in addition to lowering noise
- Can be used on doors, boot and bonnet lids, floors and roof

- 2 Sheets MAXMATT
- 25cm x 25cm
- 1.5mm thick

**AMM2**

9 317114 897510

- 1 Sheet MAXMATT
- 46cm x 80cm
- 1.5mm thick

**AMM1**

9 317114 897503

- 5 Sheets MAXMATT
- 46cm x 80cm
- 1.5mm thick

**AMM5**

9 317114 897527

- 9 Sheets MAXMATT
- 46cm x 80cm
- 1.5mm thick

**AMM9**

9 317114 897534

## Lead-Free Solder Wire

- Metal alloy for lead-free solder

### 1.2mm Lead Free Solder, Three Core Flux

- Sn99.3% Cu0.7%
- Three core
- Flux percentage 0.5% - 3% wt
- 1.2mm Diameter

**WKS12**

9 317114 872777

### 1.5mm Lead Free Solder, Three Core Flux

- Sn99.3% Cu0.7%
- Three core
- Flux percentage 0.5% - 3% wt
- 1.5 mm Diameter

**WKS15**

9 317114 872784

# Phone Brackets

- Allows phone holder to be mounted using original factory screws, bolts and fixtures - no damage left when the accessory is removed
- No drilling of holes required

## AV Mounting Brackets

### Monitor Headrest Side Mounting Bracket

- Simply attaches to your front seat's headrest
- Variable adjustment positions for multiple viewing angles
- Can be easily removed when not required
- Made from quality components and durable steel

**AVPT2**

9 317114 894014

### Monitor DIN Box Mounting Bracket

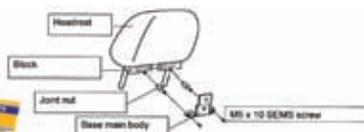

- Simple DIN mount attachment under or above radio
- Manual up-down tilt mechanism for variable viewing angles
- Made from quality components and durable steel

**AVPT6**

9 317114 894021

### Monitor Headrest Mounting Bracket

- Simply attaches to your front seat's headrest
- Sits in line with headrest for neat installation
- Made from quality components and durable steel

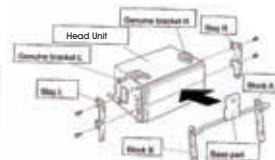

**AVPT9**

9 317114 894038

### Monitor DIN Wide Mounting Bracket

- Simple DIN mount attachment on each side of radio
- Manual up-down tilt mechanism for variable viewing angles
- Made from quality components and durable steel

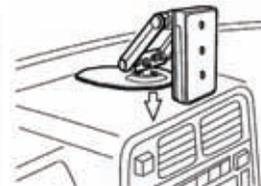

**AVPT11**

9 317114 894045

### Monitor Dashboard Mounting Bracket

- Simple stick-on dash attachment
- Manual up-down and side tilt mechanism for variable viewing angles
- Made from quality components and durable steel

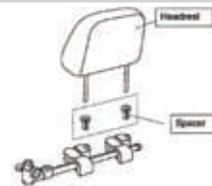

**AVPT12**

9 317114 894052

### Monitor Deluxe Headrest Side Mounting Bracket

- Simply attaches to your front seat's headrest
- Variable adjustment positions for multiple viewing angles with full tilt/pan capabilities
- Can be easily removed when not required
- Made from quality components and durable steel

**AVPT14**

9 317114 894069

### Monitor Headrest Mounting Bracket

- Holds TFT TV/Monitor to headrest
- Fully adjustable for mounting any screen
- Used for rear seat viewing
- UV stabilised plastic
- Dimensions: 195mm (H) x 235mm (W) x 60mm (D)

**AVHRMB**

9 317114 887979

### Portable Mini VCD/CD/MD Car Mounting Kit

- This mounting kit is the most stable and practical way to use your portable player in your car
- Easy to install with multiple angle adjustment
- Anti vibration platform improves stability
- Fits all portable CD and MD players

**CA400**

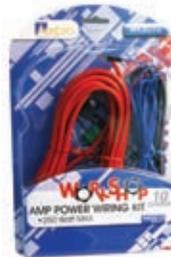

9 317114 889027

## Amplifier Wiring Kits

### 10 GA 250W Max

- 5.5M 10 GA Red Power Cable With O-Ring Terminal
- 0.8M 10 GA Black Ground Cable with O-Ring Terminal
- 20 GA Blue Trigger Wire
- 30A ATC Fuse with Holder
- 10 GA Grommet
- 6pcs Cable Ties

**WKS010**

9 317114 898999

### 2 Channel 10 Gauge 250W Max

- 5.5M 10 GA Red Power Cable with O-Ring Terminal
- 0.8M 10 GA Black Ground Cable with O-Ring Terminal
- 5M, 2 Male to 2 Male RCA Lead
- 20 GA Blue Trigger Wire
- 30A ATC Fuse with Holder
- 10 GA Grommet
- 10pcs Cable Ties

**WKS210**

9 317114 899002

### 4 Channel 8 Gauge 450W Max

- 5.5M 8 GA Red Power Cable with O-Ring Terminal
- 0.8M 8 GA Black Ground Cable with O-Ring Terminal
- 2pcs 5M, 2 Male to 2 Male RCA Lead
- 20 GA Blue Trigger Wire
- 50A ATC Fuse with Holder
- 8 GA Grommet
- 12pcs Cable Ties

**WKS408**

9 317114 899019

### ATC (Blade) Inline Fuse Holder with Rubber Dust Cover

- Fitted with 30cm 12 gauge cable
- Holds standard ATC (Automotive Type blade) Fuses
- Water-resistant covering
- Gold plated terminals

**AP472**

9 317114 874672

# RCA Leads

## 1.2M, 2 Male/2 Male

- Clear single shielded Cable
- Gold plated RCA Plugs
- Metal RCA Lead

**WK122**

9 317114 898623

## 3M, 2 Male/2 Male

- Clear single shielded Cable
- Gold plated RCA Plugs
- Metal RCA Lead

**WK322**

9 317114 898616

## 5M, 2 Male/2 Male

- Clear single shielded Cable
- Gold plated RCA Plugs
- Metal RCA Lead

**WK522**

9 317114 898609

## 1 Pair, 22cm 2 Female/1 Male

- Clear single shielded Cable
- Gold plated RCA Plugs
- Metal RCA Lead
