

# NEW HIGH DEFINITION 5.0M SPORTS CAMERA

## NEW HIGH DEFINITION SPORTS CAMERA

### EXTREEME ACTION CAMERA

For the ultimate adrenaline rush seeker! No matter the conditions this all-terrain, digital video camera allows you to capture all the action on the move! From skateboarding and snowboarding, to rock climbing and skydiving, the possibilities are endless! Compact and unobtrusive for inside vehicle mount or seal it inside the waterproof casing for helmet or handlebar mounting out in the elements. Inbuilt rechargeable batteries charges through mini-usb cable for connection to download movies and images to your PC, etc. Includes several mounting base options including wind screen suction cup, handlebar clamp and helmet strap with quick release. Requires Micro-SD card 4Mb and up. Now available in both standard and high definition models.

- Compact portable camera
- Water resistant up to 3 meters
- Touch screen for easy setup

### 5.0M SPORTS CAMERA

The new high def model offers 1080p recording at 60 frames per second, and even up to 120fps in VGA, so this Sports Camera records smoother video with true to life image clarity and more detail for slow motion playback, sharper freeze frames and blur free playback on even the most extreme sports. Playback directly to TV via HDMI. Requires Micro-SD Card.

- Mini-HDMI Socket
- Mini-USB Socket
- Micro-SD (Not Inc.)
- IR Remote Control
- 2.4" Touch Screen
- 4 Mounting Bases
