

# **CINLIST**

## **THE CETA INFORMATION LIST**

[www.ceta.org.au](http://www.ceta.org.au)

**If you are a technician involved in servicing consumer electronics in Australia or New Zealand, you will find the CINLIST a very useful tool !**

**Obtain fault information, spare parts and technical assistance from over two hundred other technicians sharing on-line.**

Simply go to the CETA website and follow the prompts to the CINLIST or enter <http://www.ceta.org.au/Cinlist/cinlist.html> into your browser and join the online community today!

*You will receive an email from the CINLIST moderator to verify your credentials before being allowed access. This is to guard against phishing emails. The CINLIST is for technical discussion and information exchange only and certain protocols apply.*

**Also Available:**

## **THE CINLIST DATABASE CD ROM**

Containing nearly 4900 entries of the latest faults on TV, DVD, CD, Home Theatre, Microwave Oven and other consumer products, this CD contains all the information that circulates through the CETA List server (The CINLIST) from over 160 Australian and New Zealand technicians. These are current faults dealt with on a day-to-day basis by Australian and New Zealand technicians. The database contains a search engine to help you to look up faults by Manufacturer, Model number, Product or the fault itself. (See website for details)

## **CETA Inc.**

**Certified Electronics Technicians' Association Inc.**

*The Trade Association for the Professional Technician*

CETA Inc. is a trade association based in Queensland, with members in NSW and Canberra. The Association comprises members in diverse areas of Electronics Servicing and Manufacturing: from Television, Computer Monitor and Two-Way Radio Servicing to small-scale printed circuit board design, manufacture and fully automated printed circuit board assembly.

CETA Inc. is an organisation of like minded technicians and businesses in the technical field which strive for excellence in providing service to their employers and customers alike.

**MISSION STATEMENT:** To provide members with an effective association that is dedicated to enhancing the professionalism of its members and to improve the public's perception of the consumer electronics service industry through members who abide by the Code of Ethics.

**PROFESSIONAL ATTITUDE:** The Association has a reputation for professional conduct in all its activities and is looking for prospective members who will uphold the professional attitude of the Association. If you fit this requirement, why not contact the Executive Officer for more details and a Membership Application Kit:
