GeoVision is a member of
 

New**Full HD IP Speed Dome****GV-SD220**

- 20x Optical Zoom, 12x Digital Zoom
- 25/30fps@1080p, 50/60 fps@720p
- Maximum 460 degree preset speed
- H.264, MPEG4, MJPEG
- 2-way audio
- WDR, Day/Night
- Outdoor model with IP66 and Arctic temperature control

**GV-SD200**

- 18x Optical Zoom, 8x Digital Zoom
- 25/30fps@1080p, 50/60 fps@720p
- Maximum 400 degree preset speed
- H.264, MJPEG
- 2-way audio
- WDR, Day/Night
- Outdoor (IP66 and Arctic)

Hybrid LPR Camera**GV-Hybrid LPR CAM10**

GV-Hybrid LPR CAM10 is a weatherproof 24/7 LPR/ANPR Infrared Hybrid camera specially designed for the reflective license plates.

- Hybrid Video output: 1.3MP IP streaming + D1 CVBS
- Built-in powerful IR LED illuminator with Intelligent IR technology
- Built-in heater & fan, wide range of temperature operation
- Weatherproof (IP66 standard)
- Distance cover 3m~14m (10ft~46ft)

HD-SDI Solution**GV-SDI-BX100****HD-SDI Box Camera**

- 1080P60, 1080P30, 720P60, 720P30
- Low Lux, WDR
- DC Drive Iris Control
- C/CS Mount
- RS-485 / RS-422 Remote Control

**GV-SDI-204****HD-SDI H/W Compression Card**

- 4 ch Video Input
- HD-SDI Video Input Format
- BNC Input Connector
- H.264, MPEG4, MJPEG
- 1080p/720p Resolution
- Recording Frame Rate up to 30fps
- 8 DI/DO

Featured**GV-IP Decoder Box**

- Decodes up to 5MP, displays up to 1080P
- H.264
- RTSP streaming
- Sequential scan display
- IR Remote Control
- PTZ control
- VESA mount (Optional)

**GV-Pad / GV-PadT (with touch panel)**

- 13" 1280 x 800 display
- Decode resolution: max 5MP
- H.264
- RTSP streaming
- Sequential scan display
- IR Remote Control
- PTZ control

**GV-Recording Server**

- 128-channel recording
- Recording mode of motion detection, I/O trigger or schedule
- Video gateway to GV-System, GV-Control Center and GV-MultiView
- Maximum 300-channel gateway transmission
- Passive and active connection with IP video devices
- Two-way audio communication with GV-IP devices through active connection
- Video playback with Remote ViewLog
- Bandwidth monitoring
- Supports Internet Explorer, Firefox, Google Chrome and Safari

**GV-FER521**

- 5MP
- IP66
- IK06
- Object tracking feature
- H.264 and MJPEG
- Provides 360 and 180 degrees panorama view

- No blind spot on live and playback view
- No mechanical moving parts
- Virtual PTZ
- Auto Pan
- Playback with virtual PTZ control

Coming soon**GV-CR420
Camera Reader**

- 4MP resolution, 15fps
- H.264, MPEG4, MJPEG
- Built-in microphone and speaker
- Digital D/N function
- Weigand 26 RS-485 interface
- 13.56 MHz Mifare

**GV-AS210**

- 4 Doors
- IP architecture
- TCP/IP communication
- Over 1,000,000 event buffer
- 40,000 Cards
- Input x 8, Output x 8
- Weigand x 4, RS-485 x 8
- Weigand 26~64

**GV-AS410**

- 4 Doors
- IP architecture
- TCP/IP communication
- Over 1,000,000 event buffer
- 40,000 Cards
- Input x 16, Output x 24
- Weigand x 8, RS-485 x 8
- Weigand 26~64

GV-CMS

GV-Control Center groups thousands of clients' connection into smaller set for easier management and administration. Software and hardware configuration can be done remotely. In case of event, video signals can be routed to secondary display such as TV Wall for easy identification of the object. Of course PTZ support and two-way audio communication are also supported.

GV-Video Wall **New** lets user easily set up a video wall over multiple screens by dragging and dropping channels to desired screen divisions. User can also zoom in the channel of interest or start sequential view on the specified monitor.

GV-Center V2 Pro receives up to 19 most frequent alert of notifications via live video, video attachment and text-based messages. When alert conditions such as intrusion, fire, video lost and system abnormality occur, it can also trigger remote digital output relay, PTZ control and send SMS/email notification to multiple recipients. Events and handling processes can be gathered and summarized as report for later inspection.

GV-Vital Sign Monitor is similar to Center V2 but using text-based notification only, which allows double size of client connections (1000 concurrent links) for centralized management.

GV-Dispatch Server balances Center V2 Pro network load, distributes client DVR requests from 25,000 GV-Systems to 50 Center V2 Pro, views real-time events, and tracks Center V2 Pro and Dispatch event logs.

GV-GIS

GV-GIS

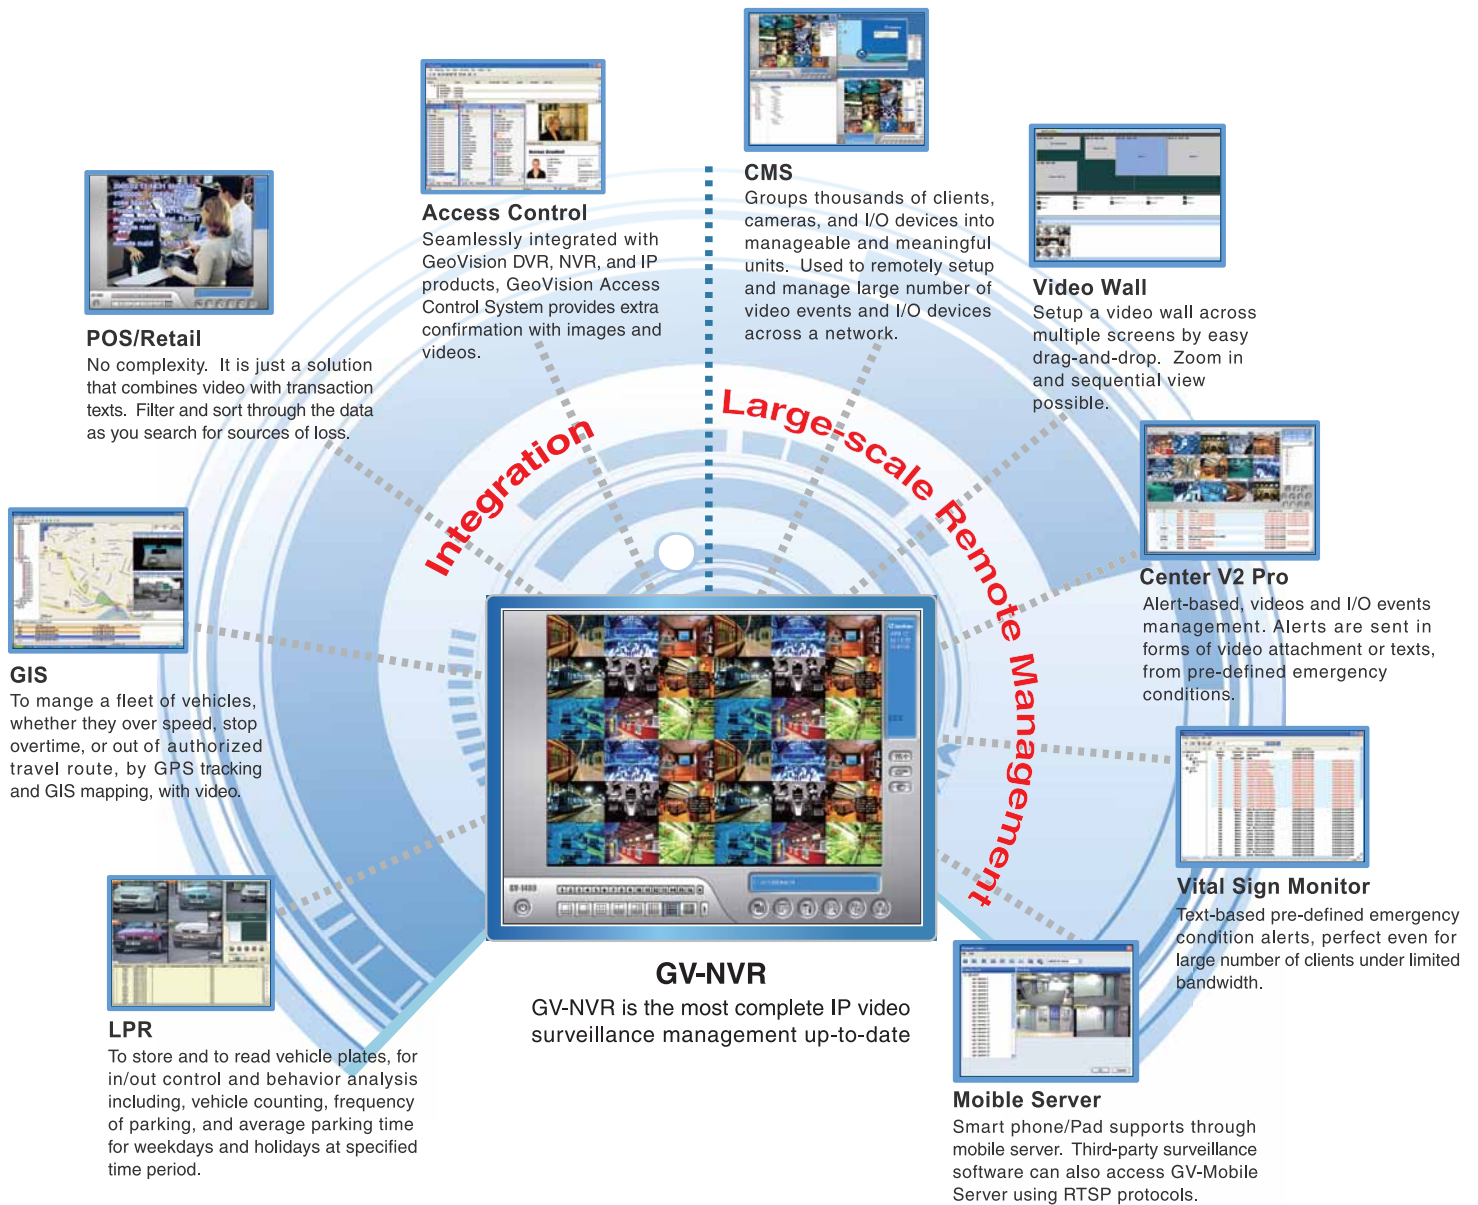

GV-GIS solution is designed for City Surveillance and Vehicle Mobile Surveillance. It is integrated with optional third party Google Maps and Microsoft Virtual Earth with very detailed map information even with satellite images. Fixed cameras of GV-DVR/GV-Hybrid DVR/GV-NVR can be easily placed into the map of GV-GIS for large scale projects. Vehicles which install GV-Video Server/GV-Compact DVR with GV-GPS can be monitored with video/audio/location/speed by GV-GIS. GV-GIS is able to play back the route with video. Alarm can be set for over speed, stop overtime, out of authorized region etc. Web-based interface is available for remote monitoring.

Solution

Retail Solution

GeoVision Retail solution provides a number of video monitoring solutions with visual contextual awareness that can help business owners protect their business as well as reducing shrinkage through POS and cash register integration. GeoVision People Counting function and GV-Web Report visualization tool provide business owners with value added information for business decision. Integration with EAS provides an effective solution to shorten the process of handling alarm events and to provide a customer care service. Using 360° Fisheye IP Camera, it provides a no blind spot solution for live view and playback with virtual PTZ control.

Accessory

- | | | | |
|--|---|---|--|
|  <p>GV-NET I/O Card V3.1
Provides 4 inputs and 4 AC/DC relay outputs.</p> |  <p>GV-I/O 12-In Card V3
Provides 12 digital inputs; works with GV-NET/IO Card.</p> |  <p>GV-I/O 12-Out Card V3
Provides 12 relay outputs; works with GV-NET/IO Card.</p> |  <p>GV-NET Card V3.1
RS-485/RS-232 interface converter.</p> |
|  <p>GV-Loop Through Card
16 channels looping from capture card.</p> |  <p>GV-IO Box 4/8E/16E
Provides inputs and AC/DC relay outputs.</p> |  <p>GV-Relay V2
Provides 4 digital relay outputs for GV-IP Camera and Video Server.</p> |  <p>GV-COM V2
Provides one RS-485 port through a USB port.</p> |
|  <p>GV-HUB V2
Provides 4 RS-485 port through a USB port.</p> |  <p>GV-Data Capture V3/V3E
For POS integration with optional Ethernet module.</p> |  <p>GV-Battery
Power backup for GV-AS Controller and GV-IP Devices.</p> |  <p>GV-Wiegand Capture
For Access Control Wiegand reader</p> |
|  <p>GV-Keyboard V3
Controls up to 16 GV-Systems / GV-Control Center.</p> |  <p>GV-IR Remote Control
Remote control for GV-System.</p> |  <p>GV-Joystick
Full control to the PTZ devices.</p> |  <p>GV-GPS Receiver
For GIS mobile application.</p> |

The DVR cards are designed to especially support GV-DVR/NVR systems, to meet the surveillance industry's image standards. The selections are from 4 to 32 channels, and at resolutions ranging from CIF to High-Definition. Since the cards are specifically designed for GV-DVR/NVR system, it truly brings out the high performance + of the total solution.

Compact DVR

Compact DVR is designed to use in vehicles and confined space. It is available in regular and Anti-Vibration ACC model, suitable for shock and vibration in mobile environments.

- H.264 video compression
- 4/8 channels of video, audio recording and playback
- TV/VGA output for spot monitor
- Supports digital I/O
- Supports GPS (Optional)
- Supports 3G/3.5G/UMTS modem (Optional)

Compact DVR 8 CH (H.264)

GV-LX8CD1 1 Bay HDD
GV-LX8CD2 2 Bay HDD
GV-LX8CD2W 1 Bay HDD + DVD R/W

Compact DVR 4 CH (H.264)

GV-LX4C3D1 1 Bay HDD
GV-LX4C3D2 2 Bay HDD
GV-LX4C3D2W 1 Bay HDD + DVD R/W

Compact DVR 8 CH (H.264 Anti Vibration)

GV-LX8CV1 1 Bay HDD
GV-LX8CV2 2 Bay HDD

Compact DVR 4 CH (Anti Vibration)

GV-LX4C3V 1 Bay HDD
